

Appendix F – Lead-Based Paint Disclosure

Dear Building Occupant,

Recently your work area, located at _____ was tested and identified with the presence of lead-based paint. All workers conducting the work have been trained in the proper procedures to minimize the generation of lead contaminated dust and debris. Clean up and disposal methods will also be strictly adhered to during these operation and maintenance activities.

These activities will begin _____ and end on _____ and will consist of: _____

Please ensure that all windows are kept closed during these activities. If you have any questions or concerns, please feel free to contact IUEHS for your respective campus. Thank you.
